## EDUCATION

**University of Ilorin (UNILORIN)**  
MBBS

**Ilorin, Nigeria**  
August 2021 - Present

## WORK EXPERIENCE

### ILUMSA

Lead Frontend Developer

**Ilorin, Nigeria**  
October 2025 - Present

- Leading the frontend direction from architecture and design implementation to ensuring responsiveness and performance.
- Working closely with backend developers to align APIs and data flow for a seamless user experience.
- Collaborating with the design team to bring clean, intuitive interfaces to life.
- Setting up best practices, coding standards, and workflows for the frontend team.
- Focusing on building a functional and user-centered interface that reflects the association's professionalism and vision.

### Next Gen Medics

Frontend Development Tutor

**Ilorin, Nigeria**  
August 2025 - Present

- Developed a structured curriculum that simplifies coding for beginners and aligns with the needs of medical students.
- Training medical students in core frontend technologies (HTML, CSS, JavaScript), helping them build their first functional web projects.
- Supporting learners through guidance and mentorship, aimed at improving coding confidence and problem-solving skills.

### RCCG Carshalton

Full Stack Developer

**England, United Kingdom**

April 2023 - Sept 2023

- Led the revamp of the church's website using the MERN stack (MongoDB, Express, ReactJS and NodeJS) thereby improving site speed by 55% and enhancing mobile responsiveness for a smoother user experience.
- Collaborated with cross-functional teams to implement new frontend features, boosting online engagement and accessibility.
- Optimised codebase and integrated best practices, which reduced maintenance issues and improved scalability for future updates.

### InEx

Creator & Full Stack Developer

**Lagos, Nigeria**  
May 2023 - Aug 2023

- InEx is a full-stack web application I built in 2023. I created InEx out of frustration with not knowing where my money was going or coming from. My goal was to build a simple, user-friendly tool to track expenses and manage finances efficiently in different currencies.

- Designing and developing the frontend architecture using React.js
- Building and maintaining RESTful APIs and backend logic using Node.js, Express, and MongoDB.
- Implementing user authentication, data storage, and file upload features.
- Focusing on some UI/UX to ensure a simple, clean and responsive interface for users.
- Deploying the web app using free hosting platforms (initially Cyclic.sh) and managed app updates and performance improvements.
- Handling full-stack maintenance such as debugging, version control (GitHub), and API integration.

**Living In Full Expression (L.I.F.E) Foundation**  
*Lead Frontend Developer*

**Colorado, United States**  
*April 2022 - Jan 2023*

- Built the organization's first website from the ground up using ReactJS, creating a digital presence that expanded their reach to donors, volunteers, and partners.
- Designed and implemented a user-friendly frontend interface, making it easy for visitors to learn about programs and get involved.
- Collaborated with the foundation's leadership to translate brand goals into a functional site, driving online visibility and credibility.

**HNG Tech**  
*Frontend Developer*

**Lagos, Nigeria**  
*Oct 2022 - Dec 2022*

- Collaborated with a remote team to develop and maintain frontend features using HTML, CSS, and JavaScript.
- Gained hands-on experience with industry-standard tools and workflows such as Git, GitHub, and Agile development.
- Contributed to real-world projects by debugging issues and optimising code, which improved performance and usability.

## **LEADERSHIP EXPERIENCE**

---

- Led development of LIFE Foundation's first website, collaborating with executives to establish the organization's digital presence.

- Supported team members during HNG Tech internship by sharing coding solutions and assisting with project challenges.
- Mentoring students in frontend development at Next Gen Medics, focusing on building technical skills and confidence.

## CERTIFICATION

---

### Programming Hero

*Introduction to Programming Using Python*

*August 2020*

- Gained foundational knowledge in Python programming, covering syntax, problem-solving, and basic project development.

### CodeLiber

*HTML Mastery*

*April 2021*

- Gained comprehensive knowledge of HTML5, including semantic structure, forms, embedding, and accessibility standards. Built multiple responsive web pages and learned to write clean, well-structured markup for modern web applications.

### CodeLiber

*CSS Mastery*

*April 2021*

- Learned advanced CSS techniques for layout design, including Flexbox and Grid, responsive design principles, animations, and transitions. Focused on creating visually appealing and mobile-friendly user interfaces.

### CodeLiber

*JavaScript Mastery*

*April 2021*

- Developed strong skills in core JavaScript concepts, including DOM manipulation, functions, and event handling.

### Grashopper

*Coding Fundamentals*

*May 2021*

- Developed strong skills in core JavaScript concepts, including DOM manipulation, functions, and event handling.

## SKILLS & INTERESTS

---

**Skills:** HTML, CSS, JavaScript, TailwindCSS, Bootstrap, ReactJS, NextJS, MongoDB, Express, NodeJS, Git/GitHub, Microsoft Office, Google Workspace (Docs, Sheets, Slides, Forms), Communication, Organisational and Interpersonal skills.

**Languages:** English, Yoruba

**Interests:** Frontend Development, Backend Development, UI/UX design, Writing, and Reading.
