

SAMUEL ALUKO

Software Developer

✉ alukosamuel25@gmail.com ☎ +2347068526609 📍 Ilorin, Kwara

Summary

A software developer specializing in building fast, responsive, and user-focused web applications using React, Next.js, TailwindCSS, MongoDB, Node.js, and other modern web technologies. Experienced in collaborating with cross-functional teams to turn product ideas into scalable digital experiences. Passionate about clean architecture, performance optimization, and creating intuitive user interfaces.

Professional Experience

Software Developer, TUFFMAN - Developed the e-commerce website using Shopify to enhance functionality. - Collaborated with the TUFFMAN team to gather requirements and implement solutions effectively. - Generated over \$5k in website sales within the first week of launch. - Troubleshooted and resolved software defects, improving application performance and user experience.	05/2026 – Present Texas, United States
Lead Frontend Developer, ILUMSA - Led the frontend direction from architecture and design implementation to ensuring responsiveness and performance. - Set best practices, coding standards, and workflows for the frontend team. - Focused on building a functional and user-centered interface that reflects the association's professionalism and vision.	10/2025 – 01/2026 Ilorin, Kwara
Full Stack Developer, RCCG - Led the revamp of the church's website using the MERN stack (MongoDB, Express, ReactJS, and NodeJS), thereby improving site speed by 55% and enhancing mobile responsiveness for a smoother user experience. - Collaborated with cross-functional teams to implement new frontend features, boosting online engagement and accessibility. - Optimised codebase and integrated best practices, which reduced maintenance issues and improved scalability for future updates.	04/2023 – 09/2023 Carshalton, Greater London
Lead Frontend Developer, L.I.F.E Foundation - Built the organization's first website from the ground up using ReactJS, creating a digital presence that expanded their reach to donors, volunteers, and partners. - Designed and implemented a user-friendly frontend interface, making it easy for visitors to learn about programs and get involved. - Collaborated with the foundation's leadership to translate brand goals into a functional site, driving online visibility and credibility.	04/2022 – 01/2023 Colorado, United States
Frontend Developer, HNG Tech - Collaborated with a remote team to develop and maintain frontend features using HTML, CSS, and JavaScript. - Worked with industry-standard tools and workflows such as Linear, Git, GitHub, and agile development. - Contributed to real-world projects by debugging issues and optimising code, which improved performance and usability.	10/2022 – 12/2022 VI, Lagos

Education

MB;BS, University Of Ilorin

12/2023 – Present
Ilorin, Kwara

Key Skills

- JavaScript
 - ReactJS
 - TypeScript
 - MongoDB
 - Neon
 - Git
- Shopify
 - Next.js
 - TailwindCSS
 - Node.js
 - StackAuth

Accomplishments

Outstanding Tutor in Frontend Development Award, NEXTGEN MEDICS

12/2025

Volunteering

Frontend Development Tutor

- Developed a structured curriculum that simplifies coding for beginners and aligns with the needs of medical students.
- Trained medical students in core frontend technologies, helping them build their first functional web projects.
- Supported learners through guidance and mentorship, aimed at improving coding confidence and problem-solving skills.

08/2025 – 12/2025
Ilorin, Kwara

Interests

- Frontend Development
 - Shopify E-Commerce
- Low-Code Backend Development
- UI/UX Design
